Mary has evaluated the samples for SDG. The SDG content falls in line with the samples previously analyzed. Variations may account for differences. The statistical differences between the values may be due to sampling and variation in the total oil and SDG results are below. Mary should have the PV and FF A completed by the 5th.

Sample	SDG (mg/g)	oil (%)
111307	50.55	10.96
276004	65.74	11.19
476004	67.86	9.22
110705 L1	46.78	7.74
110705 L2	46.53	7.80
